## ANDROGYNE SIDE TABLE, Ø63

The Androgyne Side Table, Ø63 is a lesson in contrasts, seamlessly blending elements of the masculine and the feminine. The customisable design is now offered in a new size, with a table top in Emperador, Calacatta Viola, Nero Marquina or Crystal Rose marble as a beautiful, natural contrast to its metal base.

The new low profile and wide form of the Androgyne Side Table, Ø63 ensure its use in a wide range of applications – in living areas, hallways, bedrooms and more. And with its contemporary elegance and minimalist appeal, it becomes a statement piece that enhances the aesthetics as well as the function of a space.

Simple forms with rounded edges and straight lines make the Androgyne Side Table, Ø63 an enduring classic. A new wider shape and a lower profile make it ideal for use as a lounge table, customisable to suit any space thanks to three metal base finishes and table tops in four marble types.

With a new base available in black or ivory powder-coated metal or brushed steel, the Androgyne Side Table, Ø63 is an enduring choice for both residential and commercial spaces, perfectly complementing a wide variety of interior design styles.
