

Atal with backrest

Design by Form Us With Love

The challenge put forward by the Alki cooperative was to design a chair combining solid wood, their favourite material, with metal tubing. The objective was to create a broad range encompassing a lounge chair, stools and various models of stackable chairs as well as bistro tables. Form us With Love came up with a family of items based on a single wooden shell that, tilted and positioned differently, fulfils all these functions... So, the Atal range is made up of a straight, high stool, a welcoming armchair, a simple chair and an inviting, comfy lounge chair.

CATEGORY:

Chair

ENVIRONMENT:

Indoor

APPLICATIONS:

- CHR
- Public
- Office

WEIGHT: 7 kg

MATERIALS:

Stackable in sets of 5 and 20 with trolley.
Frame and structure in steel epoxy. Shell available in 3 versions , without upholstery , pad seat and front upholstered in fabric, eco-leather or leather. Wooden shell in oak veneer. Glides in polypropylene.
