

KANT

BY HEE WELLING

TABLES

Simplicity – both in the visual expression and physical construction – was the key concept in the design of the Kant Meeting Table series by Hee Welling.

KEY FEATURES

Discrete form
Refined aesthetic
Robust structure

KANT TABLE

True to the principles of Danish Design, all embellishments have been removed from both frame and table top of the Kant series – creating an original and sleek expression. The fine lines draw a discrete contour across the Kant's environment, blending the table into its surroundings.

The Kant table top is produced from 18 mm MDF with a straight Black edge, which is sat on a 40 mm powder coated angel Iron frame.

FACTS

Designer	Hee Welling
Year	2010
Origin	Made in Denmark
Table Top	16mm MDF with linoleum, laminate, Fenix, oak veneer
Base	Angled iron. Powder coated black (RAL9005), powder coated white (RAL 9016), RAL color range
