## AÏKU STOOL

Designed by Jean Marie Massaud

The Aïku chair collection, inspired to the short and romantic Japanese poems (haiku), extends and also includes stools.

Aïku stool – elegant, convivial and smart – comes either with wooden base or with sled.

The latter is stackable, which makes the stool highly performing, thus confirming its double aesthetic and functional nature. The shell is offered in all of the versions available for the chair, including the comfortable and wrapping padded model. Like the chair, Aïku stool was conceived for homes, restaurants - in particular, is recommended next to kitchen counters, bars and get-together areas – and collective spaces.

In offices, Aïku stool is an ideal solution for the increasingly widespread habit of fast and standing meetings in 4.0 companies, in shared spaces, slightly less formal than meeting rooms.
