Technical features

Body

The chair's body is crafted from solid wood, while the bent backrest is made from thin slices of high-quality veneer. The base is connected using characteristic, visible wedged mortise and tenon joints. Felt gliders are attached to the legs and are suitable for most types of flooring. The seat is secured to the frame with matte black plastic seat spacers.

Seat

Three material options are available for the seat: form-pressed veneer, leather upholstery, or fabric upholstery.

Finish

Available in three plant-based Hardwax Oil finishes that preserve the wood's natural appearance: White, Natural, and Smoked Oil (for the solid oak version). A black lacquered option is also available. The walnut version is offered exclusively in a Natural Oil finish.

Cleaning

Please see [Product](#) or [Material](#) page on our website.

Standards and Certifications

Muna Chair fulfil requirements of standard BAS EN 16139:2014 + BAS EN 16139/Cor1:2014 Furniture - Strength, durability and safety - Requirement for non-domestic seating.
