Technical features

Body

Chair elements are connected with characteristic and visible wedged mortise and tenon joints. Plastic gliders are attached to the chair legs and are suitable for most flooring options. The seat is connected to the body through black seat spacers, while the backrest is attached to the chair legs with black powder-coated spacers.

Seat

Three material options for a seat are available: as a form-pressed veneer seat or as leather or fabric upholstered options. For further information please see Available materials page in this document.

Finish

Available in three plant-based Hardwax oil finishes (colors), which retain the wood's natural state (white, natural and smoked oil) or as a black lacquered option.

Cleaning

Please see [Product](#) or [Material](#) page on our website.

Standards and certifications

Nora Lounge Chair fulfills the requirements of standard BAS EN 16139:2014 + BAS EN 16139/Cor1:2014 Furniture - Strength, durability and safety - Requirements for non-domestic seating.
