COFFEE TABLES

KEY FEATURES

Elemental play
Reserved elegance
Sculptured strength

SPIRE COFFEE TABLE

Designed by a blacksmith, Spire's form is a lesson in expert metalwork – focusing on slim pieces of powder coated steel that remain strong to support the natural stone top.

Marble, slate, granite or recycled leather tops are placed directly on the frame, secured with steel clasps. Spire is available in four sizes as either a rectangle, oval or circle.

FACTS

Designer	Dennis Marquart
Year	2019
