

Still Café Table

“Our idea for the Still Café Table was to create a design with an apparent function that would fit intuitively into any space without making much visual noise. With its elegant four-legged base across various heights, the design is stripped to its essentials, complemented by the angled edges of its table top.”

— Iskos-Berlin

Designed by	Iskos-Berlin
About the Designer	Iskos-Berlin is a Copenhagen-based design duo that has made international headlines within furniture, industrial and graphic design. The studio, formerly known as Komplot Design has collaborated with some of the world’s most prestigious manufacturers and their furniture, lighting and other design products are exhibited at numerous design museums around the world including MoMA and the Designmuseum Denmark.
Environment	Indoor
Country of Production	Denmark
Preassembled	No - Mount base to tabletop.
Description	The Still Café Table is designed with a clean expression and apparent function on a four-legged base, complemented by the angled edges of its table top. Available across various heights with either round or square table top, the Still Café Table is an elegant match for any kitchen area, café, restaurant, bar, conference or office setting. The higher versions also function as a hot-desk in workplaces and open areas.
Material	Table top is made from MDF with either a linoleum or nanolaminate finish and lacquered edges. Nanolaminate table tops are made using FSC™-certified (FSC-C028824) wood. Base is made using minimum 90% recycled die casted aluminum. The recycled die casted aluminum comes from a mix between post-industrial and post-consumer waste. The mounting plate and tube are made using powder coated steel.
Cleaning & Care	<p>Powder coated surfaces: Clean with a moist cloth. If necessary, use a little dish soap on the cloth.</p> <p>Nanolaminate: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. Treat the surface with a melamine sponge, available in hardware stores, to reduce minor scratches.</p> <p>Linoleum: Clean the table with a damp cloth. If necessary, use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. For linoleum versions it is recommended to use a linoleum polish on the surface when needed.</p>
