Designed by *Anderssen & Voll*

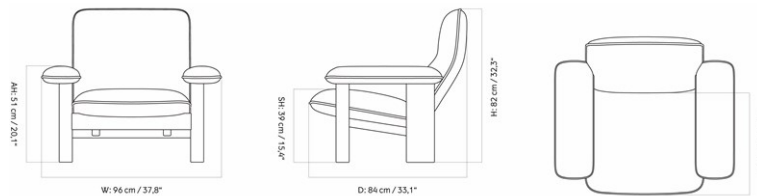

The low profile and enveloping embrace of the Brasilia Lounge Chair invites relaxation. Angled to enhance sitting, this lower version of the original Brasilia chair design rests on the collection's characteristic solid wood frame that features rounded front legs, exaggerated armrests and textile or leather upholstery for a cosy and comfortable experience. At once iconic and modern in its expression, it takes its design cues from Scandinavian mid-century aesthetics and Brazilian modernism.
