DAEN / HIGHBOARD, Federico Peri

Highboard with plywood and MDF lacquered body. Two doors upholstered in water-repellent and cleanable ecoleather. One or two internal adjustable shelves. Top available in two options: 6 mm porcelain stoneware; 6 mm glass painted below. Elliptical-section legs made of lacquered solid wood and connected by steel bars. Steel handles in the same colour of the bars.

The tops are finished with protective coatings, that never make the surface impervious, but are useful to slow down absorption of liquids. Cleaning: use water and a neutral detergent on the surface. Avoid direct contact with aggressive chemicals substances, solvents, ammonia, inks, oily soaps, lemon, wine, coffee. In case of contact, rinse the surface immediately and thoroughly.

MDF: MDF (Medium-Density Fiber-board) is a wood product, the panels are obtained from very thin fibers, which are bind together with a glue material and compacted by applying high pressure.

Eco-leather: Eco-leather is a synthetic leather product with a low environmental impact. Eco-leather is an eco-friendly and long-lasting material, it is soft to the touch and replicates the natural marks and imperfections typical of genuine leather. This

GERVASONI

eco-leather is made of interwoven polyurethane ribbons and piece-dyed.

Stoneware: Stoneware has 6 mm thick slab, coupled with a 6 mm glass top, with a compact surface, heat-resistant, stain-resistant, fungi & mold resistant. Cleaning products and detergents-resistant, suitable for dining purposes.

Glass: 12 mm thick glass top, varnished on the back side. The easy maintenance thanks to its stain-proof qualities and ability to be washed with common detergents make it also suitable to be used for foods.
