Designer	Cameranesi Pompili
Year	2023

Hand-tufted rugs are the result of a traditional weaving technique that involves inserting wool or other materials, such as silk, viscose, and linen. The yarns are inserted using a tufting gun along a pre-drawn design on the rug. This technique allows for complete freedom in the choice of patterns, shapes, and colors. Composition: 59% wool and 41% viscose.

Frammenti

Country of production: NEPAL

Surface flammability certifications: ASTM D 2859 06. Specific certifications available on request. Treatments: fire-resistant and stainproof.
