VOLUME SIDE TABLE

The Volume Side Table introduces a fresh and innovative approach to contemporary furniture that stands out in any setting.

Its sleek aluminium surface is polished and lacquered to create a characterful finish and an easy-clean surface, making it easy to maintain with minimal effort.

In lacquered aluminium, the Volume Side Table is designed for both indoor and outdoor use. Versatile in its use, it's suitable for various settings, providing flexibility and functionality wherever it's placed.

Curved lines offset straight lines on the Volume Side Table, creating a balance in the overall look that adds warmth and approachability to the cool, hard metal.
